

## **TIS CY '06 Safety Goals**

March 1, 2006

TIS will match the Operations Directorate Safety Goals that are relevant to us. Specifically, that means TIS will achieve a goal of at least 90% by the end of CY06, with demonstrated progress quarterly for each of the goals tracked on the ES&H Quarterly Report:

- a. 90% of STAs will be current
- b. 90% of Mandatory Training will be current
- c. We have no required medical exams for staff in TIS
- d. We will all participate in Building Evacuations as they are held.
- e. We will contribute to Facility Emergency plans as appropriate.
- f. We have no outstanding corrective actions at this time
- g. In addition, because TIS work is primarily office work and heavily computer/desk dependent, we will ensure 90% compliance by the end of CY06 for the following:
  - (1.) Staff completing 291EV, Ergonomic evaluation and re-completing it when their workstations/desk configuration changes.
  - (2.) Staff taking 410, Back Safety Training
