Discussion of a plenary session on the US bid to host the LC at the American Linear Collider Workshop, Cornell, July 13-16, 2003
Draft program

1. Path toward the US bid to host (25 min)
2. US LC Scope (and comparison w. scopes drafted abroad) (25 min)
3. Criteria for the Technology Choice (25 min)
4. Report on US LC Options (25 min)
5. Q&A/Panel discussion (40 min)
Questions for the Executive Committee

• Are these the right topics for the talks?
• Are there other pressing issues that should be presented?
• Are there topics that would particularly benefit from discussion?
• Is there a structure for the Q&A or Panel discussion that you believe would generate a fruitful exchange of ideas?
• Who are the appropriate speakers?
