

Prospective Graduate Student Open House Mar/2015

SLAC Program

This is *part of the two day program* on Mar/17-18 for prospective graduate students admitted to Stanford for Fall 2015. The morning programs are at Stanford campus with research introduction and student dialogue. For the afternoons, both Stanford campus and SLAC have open office and open lab programs for both days, with Tuesday Mar/17 has Stanford campus emphasis, while Wednesday Mar/18 program has SLAC emphasis.

With SLAC as an independent school in the Stanford academic system, the extensive research programs in the two faculties at SLAC also offer formal supervision for Stanford student theses.
