

MINUTES OF PROJECT M MEETING NO. 36

Date: February 19, 1960

Place: Room 104, Physics Lecture Hall

Present: Neal, Edwards, Ginzton, Jasberg, Lebacqz, Turner, Loew, Gallagher, Bunker, Prosper, Brown, Helm, Copenhagen, Snyder, Eldredge, Sonkin, Kraus, Breymayer, Meloni, Pope, Pindar, Jones, Crabtree, Kirk.

Next Meeting: February 26, 1960, 4:10 p.m., Room 104, Physics Lecture Hall

I. Report of Project Status

Mr. Ginzton began the meeting by giving a brief report on current events.

- a. The Stanford Board of Trustees has agreed, by a large majority, to make the Sand Hill Road site available to the project.
- b. Mr. Panofsky has learned that the JCAE now seems quite satisfied that the several issues with which it has been concerned are now resolved. ~~It is not unlikely that the project will be authorized within a month or six weeks.~~

II. Talk by R.E. Neal

Mr. Neal presented a talk on the general design of the Project M accelerator, which lasted till adjournment. He will continue this talk at the next meeting.

Adjourned: 5:20 p.m.

W.T.K.

D. Langston

TO: All Project M personnel
FROM: W. Kirk
SUBJECT: Correction of M meeting minutes

In the minutes of Project M Meeting No. 36 there appeared the sentence, "It is not unlikely . . .", under Section I.b. This is an incorrect report of what was said, and also an unnecessary statement. Please draw a line through this sentence and expunge it from the record.

The minutes of Meetings Nos. 32, 33, 34 and 35 have not yet been written up, which is why you do not have copies of them. Soon, hopefully.
