I. Report of Project Status

Things look pretty good, now, again, probably. Mr. Panofsky reports that the AEC announced yesterday that it would officially support the project for authorization by Congress.

II. Second Part of Talk by R.B. Neal

Mr. Neal continued with the talk he began at the last meeting, on general design of the Project M accelerator.

III. Scheduled Talks

The schedule of talks for the coming three weeks is as follows:

March 11, R.F. Mozley, End Station Design  
March 18, K.L. Brown, Accelerator Operation  
March 25, K. Breymayer and T.A. Christie, Instrumentation and Control

More talks will soon be scheduled, including W.K.H. Panofsky, Beam Dynamics. These will be announced.

Adjourned: 5:20 p.m.
