

MINUTES OF PROJECT M MEETING NO. 53

Date: Friday, June 17, 1960

Place: Physics Lecture Hall Room 101

Present: Gould, Schrade, Jones, Copenhagen,
Brey Mayer, Crabtree, Bunker, Chu,
Loew, Neal, Edwards, Jespersen,
Kirk, Jasberg, Turner, Brady, Kraus,
Ritson

Next Meeting: June 24, same time and place. Mr. Goerz
will talk on the subject of vacuum.

I. NEWS

Mr. Neal stated that two "Briefing Conferences" will soon be held: the first, on Klystrons, on June 27 and 28; and the second, on the modulator-power supply system, on June 29 and 30. These conferences are being held for the purpose of telling industrial people in these fields what we're doing, and of eventually sub-contracting some development work on klystrons and the modulator-power supply system. About 17 companies will attend the modulator conference, and about 6, the klystron conference.

II. TALK ON POWER

Mr. Edwards and Mr. Jones presented a talk on the AC power system for Project M.
