

M-204

MINUTES OF PROJECT M MEETING NO. 55

Date: Friday, July 8, 1960

Place: Physics Room 100

Present: Copenhagen, Buchalter, Taylor,
Mallory, Christie, Snyder,
Breymayer, Loew, Edwards,
Gould, Bunker, Crabtree, Fowkes,
Beardsley, Eldredge, Cain, Jones,
Kraus, Jasberg, Meloni, Pope,
Shaw, Kirk, Schrade

Next meeting: July 15, same time and place.
Someone will speak.

I. TALK ON SITE AND BUILDINGS

Mr. Copenhagen presented a talk on the site and buildings for Project M. It appears that a freeway will eventually cross the accelerator site, so that in addition to other high-velocity interactions, we may also observe Volkswagon scattering; Mercury-Ford decay; and high-momentum-transfer charge-exchange events such as:

Mack + White → Whack + Mite + Hubcaps
