New Secretary of Energy Has Two Jobs

On August 18, Secretary-designee Bill Richardson was sworn in as Energy Secretary. He will officially start work next Monday, Aug. 24. Also, for a brief time, Secretary Richardson will continue in his post as Ambassador to the United Nations. He says that he is looking forward to visiting DOE sites around the country and his first Bay Area stop is rumored to be Livermore Lab next week.

Be Good to Your School

Take a walk through the SLAC warehouse and see if there is anything there your school or your children's school can use. "We've got desks, file cabinets, chalk boards and lots and lots of binders," says Alan Conrad (x2329). If you see something your school can use, contact P.A. Moore (x2605) for the paperwork. Remember that this offer is only good for public schools; church affiliated or private schools do not qualify. All goods must be picked up. SLAC does not ship.

If you can't find your glasses...

Check with Rick Yeager who is maintaining a centralized Lost and Found. You'd be surprised at all the keys, glasses and miscellaneous clothing that have accumulated from around the site. "Some of these glasses look like pretty expensive prescription types, so somebody out there must want them back," said Yeager, who can be reached at x5333.

Addition to the SLAC Sculpture Garden

By now you have seen the "weather vane" overlooking the Collider Hall. Take a closer look and you'll see six hard hats mounted on a traffic cone on top of a tripod. Will the artist(s) step forward?
