Inside Opportunity

The Operational Health Physics Department is looking for an individual at SLAC to join the Health Physics Technician team. Anyone interested in this exciting career should contact Jim Allan x4064 or review the employment requisition at Personnel. The requisition is currently offered to SLAC and Stanford personnel only.

Easter Island Show

Tony and Rene Donaldson will give a slide show about their recent trip to Easter Island on Wednesday, May 5, at 11:50 am in the Orange Room. Bring your lunch and come find out why anybody would want to spend a week at the "navel of the World."

Pief's Birthday Party

The SLAC Community is invited to celebrate the 80th birthday of Dr. Panfosky, Director Emeritus. We will dedicate the W.K.H. Panofsky Auditorium in his honor. There will be a photographic display in the Lobby. Please join us for cake and ice cream in the Cafeteria Picnic Area on Wednesday, May 5, beginning at 3:00 PM. (http://www.slac.stanford.edu/gen/pubinfo/pief80.html)

From Our Readers

Last week's item about e-mail etiquette brought this comment from retiree Jack Truher: "E-mail communications on safety issues should not be inhibited." He added, "There is standard language in SLAC safety policy that encourages employees to make complaints through channels." Good point.

Regarding last week's plea for cars to be parked inside the stripes, Dave Coward says that it's not the car owner protecting the car's paint that's at fault. He asserts that old and new parking stripes are blurred and it's hard to tell where to park.

Let's Give Them A Hand!

The fine folks who organized Take Our Daughters to Work last week are Denise Larsen, Susan Lucas, Joli Stieber, Lovetta Dunn and chairman Bernie Lighthouse. Thanks also to the many volunteers who helped with various tasks before and on the day. To see web pages created by some girls during the Tech Pubs open house, take a look at http://www2.slac.stanford.edu/fpdemo/openhouse.html.

Bluegrass at Noon
In conjunction with a Foothill College Science Teachers visit to the lab, there will be a noon-time Bluegrass Festival on Friday, May 7. Thanks to June Sison, Group A intern, for organizing this special event. Please bring your lunch and join us at the Cafeteria Picnic Area to hear Wild Oats 'n Honey (http://www.stanford.edu/~wrnrp/wildoats/wildoats.html).

**Conference Organizers**

There are potential changes regarding DOE and DOE-contractor sponsored conferences. These affect budgeting and planning of SLAC sponsored conferences and meetings. If you have a conference in process or are planning one for the future you need to contact Jerry Jobe, Rachel Claus or Mimi Chang (Business Services Division) before proceeding further.

**IMAX Film Crew Overhead**

If you hear a helicopter buzzing the lab on Friday afternoon, it's a film crew doing IMAX aerial photography for the state in celebration of California's upcoming sesquicentennial. For the technical folks, they use an IMAX MSM 9801 camera and "Spacecam" camera mount on a fully equipped "A Star" helicopter. Tentatively titled "Wild California", the film is focused around the Golden State's ability to attract innovative dreamers. SLAC would be included in the sequence on science and technology. The film is scheduled to premiere in March 2000 with gala events in Los Angeles.

**FleaMarket**

You can post your classified ad using the SLAC FleaMarket [Submission form](http://www.stanford.edu/~wrnrp/wildoats/wildoats.html). Current ads can be seen on the [FleaMarket](http://www.stanford.edu/~wrnrp/wildoats/wildoats.html) web page. These pages can be viewed from computers within the SLAC domain.
