Parking Lot Resurfacing

Gate 17 will be closed Sunday, Monday, and Tuesday of next week (July 18, 19, and 20) for resurfacing. Areas involved are SSRL's Bldg 120 parking lot and roadway. Sunday and Monday there will be NO traffic allowed through the gate or through the Bldg 120 parking lot area due to the condition of the resurfacing material; Tuesday, there will be limited one-lane traffic allowed, but no parking allowed.

Pedestrian traffic will be allowed through Gate 17, but not recommended on Sunday and Monday. Pedestrians can use Turnstile Gate 16-A on the upper level near Bldg 137. The roadway will be barricaded at Region 12 and at the turn-in to the Spear Ring. Signs will be posted beginning today advising of the closure. The only exceptions will be for emergency medical, fire, and police traffic if required.

Good News for Synchrotron Division

Congratulations to everyone involved on receipt of the $14 million NIH Money for the SPEAR 3 Upgrade Project. A feature on this award will be on the SLAC Welcome Page on Friday. This is the first time another government agency has made a major contribution to a DOE facility.

Klaisner Century

Lowell Klaisner recently completed the Portland to Seattle bike ride with 7,000 of his closest friends. It only took two days, says Klaisner. "I did about 120 miles the first day then an easy 80 or so miles the second day." What he's really building up to, he admits with little hesitation, is a ride across country next year, from Washington state to Bar Harbor, Maine.

Sand Hill Road Update

If you travel west on Sand Hill out of SLAC, you will have seen the upgrade to the entrance to 280 north. The road was widened to accommodate a bike lane. Other work on Sand Hill is progressing, even though the whole process of widening the bridge near the golf course is still being appealed by the City of Menlo Park. Menlo City Council members say it could be a long time before the issue is finally settled.

What Would Have Been

On Tuesday this week, one of our Security staff was on duty to control traffic while paint dried on the pedestrian crosswalk. At the same time, a family of deer was separated by the wet paint. In the absence of other incidents, this heart-rending story might have been the news event of the week! However, SLAC Super Sleuths found other news items and We the Editor are truly grateful. As we move into the dog days of summer, all news tidbits gratefully accepted!
Don't forget the SLAC FleaMarket

You can now get there from the Announcements section on the SLAC Home Page.

FleaMarket

You can post your classified ad using the SLAC FleaMarket Submission form. Current ads can be seen on the FleaMarket web page. These pages can be viewed from computers within the SLAC domain.
