"Friends" Group Growing

A strong turnout of current staff and retirees augers well for the formation of a "Friends of SLAC" volunteer group to help with projects around the Lab. "I think it's a great idea," says recent retiree Tineke Graafland. The next meeting will be Wednesday, April 12 in the Orange Room of the Central Lab at 12 noon. Bring your lunch and bring a friend. We'd also like to see some SLAC spouses and significant others as part of the group.

Gas Made Easy

If you get your vehicle and all the necessary paperwork to Sally Campo by 4 PM at Building 81, she can have it gassed up and ready for you by 8 AM the next morning. Cars should be picked up at Building 35. Call her at ext. 2250 for details.

Good Work, Luda!

You'll be pleased to know that safety issue 99-171 has a happy ending. During a safety stand down, mechanics reported that exhaust fumes in the vehicle repair shop were creating a hazard for the mechanics as well as the folks in the adjacent offices. After investigating the problem, Luda Cantor decided on the addition of two exhaust fans on the roof of the vehicle repair shop and she engineered and managed the project through completion. "The fans are working well," says Sally Campo, who works in that area.

Travel Changes

New travel regulations are affecting SLAC travelers seeking reimbursement for lodging costs. According to Marty Sorensen (ext. 4240), travelers should keep in mind a fundamental rule about rooms: be at or below the Federal Travel Regulations rate; stay at a conference hotel; or list 3 hotels and stay at the one with the lowest rate.

Mas Español

Besides the beginning Spanish class at SLAC, we also offer an ongoing Intermediate Spanish class that meets 4:30-5:30 PM Monday and Wednesday, starting April 17. We have room for additional students. So, no "hasta mañana", call today ext. 2354 or email Barbara to register. According to Barbara, there are now 28 students for the beginners' class starting April 11.

Internal Audit Looks Good

SLAC recently hired consultants to conduct an internal audit of hazardous waste/materials, transportation, and radioactive waste. Results indicate improvement in most areas. The next step is an external audit by regulators from the County of San Mateo the week of April 10.
FleaMarket

You can post your classified ad using the SLAC FleaMarket Submission form. You can get to the current ads from the Announcements section on the SLAC Home Page. These pages can be viewed from computers within the SLAC domain.
