December 1, 2000

P.A. Moore, Director's Office

All Hands Video

If you missed the All Hands talks on Wednesday, you can check a video out of the SLAC library for viewing. For those who have asked, there are no current plans to use streaming video or to put slides online since part of the purpose of the meetings is to give everyone a chance to hear and be heard.

Three Cheers for Al Baker

Thanks to Baker’s initiative, there are now signs announcing the presence of SLAC at the Sand Hill Road intersection at Highway 280. This is a major accomplishment and Baker deserves our appreciation for arranging this with the Highway Department.

Outlook Classes and Expert Advice

SCS mail experts (Teresa Downey, Dennis Wisinski and Len Moss) will once again be on hand to answer your email questions on Wednesday, December 13 at 10:00 a.m. in the Computer Building, 3rd floor Conference Room. No registration is required. The class “Getting Started with Outlook 2000” is scheduled for December 5, 15, and 20. For more information or to register, see the SLAC Computer Education Calendar of Classes.

Clean Air Kudos

Our Bay Area Air Quality Management District (BAAQMD) inspector was here last month and SLAC received a favorable report, according to Butch Byers. “Thanks go to all line personnel who assisted with the inspection, including: Ali Farvid; Liam Robinson; Denise Larsen; Kathy Ratcliff; Tom Galetto; and Frank O’Neill,” says Byers. He added that the inspector was particularly impressed with the online Material Safety Data Sheet (MSDS) library recently piloted by the Site Engineering and Maintenance (SEM) Department with the help of Rich Jones and Elaine Hubbard.

Senior Security Man Departs

Gary Cross, one of SLAC’s security supervisors, has taken a position as head of security at Santa Clara University and will depart soon. So if you see Cross, be sure to wish him well in his new job. "We're happy for Gary, of course, but we'll sure miss him," says Director of Safeguards and Security Rick Yeager.

60,000 DOE Scientific and Technical Reports Online

For the first time, 60,000 full-text scientific and technical reports sponsored by the Department of Energy are directly accessible online using a unique URL. These reports reside on the DOE.
Information Bridge that has the capability to search every word of all the reports. A Persistent URL (PURL) allows educators, students, scientists, and engineers to directly access individual documents. The collection is DOE's report literature output since January 1995.

SLAC Merchandise from "Land's End"

Here's another way to do your holiday shopping. Stop by any of the locations below on the dates and times indicated, and look at the "Land's End" Corporate Catalog for dozens of different items that can be ordered with embroidered SLAC artwork. Volunteers will be available to take your orders during the lunch hour (Noon - 1:00) on Friday, December 1 and Monday, December 4 in the SLAC Auditorium Breezeway, or on Tuesday, December 5 in the 2nd Floor Lobby of the A&E Building. All orders placed on these days will be delivered on or before December 20 just in time for the holidays! Please bring your checkbook so you can pre-pay your order. Questions? Contact Doug Kreitz, ext. 4550

FleaMarket

You can post your classified ad using the SLAC FleaMarket Submission form. You can get to the current ads from the Announcements section on the SLAC Home Page. These pages can be viewed from computers within the SLAC domain.
