Reminder: Computer Training for GERT Available

ES&H is now offering computer based training (CBT) for "General Employee Radiological Training" (GERT). GERT is required for all individuals who need unescorted access to Radiologically Controlled Areas (RCAs). Both GERT and its prerequisite, "Employee Orientation to ES&H" (EOESH), are currently available as CBT at seven satellite locations in SLAC. You can find them listed on the ES&H Training website. For more information about this and other ES&H Training, please see the ES&H website or contact ES&H Training.

SPEAR3, Community Day Photos Available Online

Diana Rogers has been busy taking photos of two recent events, the March 31 SPEAR3 Milestone event and the April 6 Community Day event. These photos are now viewable online (see "Special Events" in the left-hand navigation). Hint: high-resolution versions of most of these images are available as well. Read item #4 on the main page for more details.

Getting Safely from Here to There

You've probably noticed more and more bicyclers, walkers and runners out on Sand Hill Road over the past few weeks as the weather warms up. And unfortunately you've also likely seen more fire trucks and ambulances. So don't miss the recent TIP article about safety on the roads. Think awareness, caution and eye contact.
