SLAC Today Launches: News, Announcements, Events and More

This week a new feature launched on the SLAC Web site that will help you find out about what’s happening daily at the Lab. SLAC Today is a one-stop resource for Laboratory news, events, announcements and links. Anyone in the SLAC community can post an item, and you don't need to have Web authoring skills to participate. For more information, see the TIP article.

Directing and Connecting - Intro to Supervision

Sign up now for this dynamic program. Learn about your own communication style and how you can communicate more effectively with the people you work with. Discover how to avoid the 15 most common errors supervisors make. These topics and more will be presented in Directing and Connecting, An Introduction to Supervision, on Thursday, October 9, from 8 a.m. until 2:30 p.m., Redwood Conference Room, ROB Building 48. For more information or to register, contact Erin Smith at Erin@slac.stanford.edu. This class is required for new supervisors with two or fewer years of experience.

Limited Time Only: Source for Electric Vehicles

The Transportation Department has found an additional source for 2002 Neighborhood Electric Vehicles (NEV's) that are priced at $4,500 each. This is a great deal for a short time only. If you are interested, please contact Paula Grenda at Ext. 2238.

QuickNews to be Discontinued

With the arrival of SLAC Today, which contains news about Lab happenings as well as particle physics, synchrotron radiation and astrophysics, we'll be discontinuing the weekly QuickNews publication. The next issue, October 10, will be the last QuickNews to be sent out. We hope that you'll check SLAC Today daily and suggest news, links or announcements that we can include on this site.
